OBJECTIVE

A determined dedicated student looking forward to excel in the field of IT. I am desirous on learning new skills and improving my abilities. Excellent team player with strong communication, collaboration skills and quick learner. I enjoy working with people and ideas. Seeking an entry level opportunity to explore the field of work.

TECHNICAL SKILLS

JAVA:

- Strong knowledge of **Control Statements, Operators, Variables and Datatypes**.
- Good understanding of **Object-Oriented concepts** like **Class, Objects**.
- Hands on experience with **Encapsulation, Polymorphism, Inheritance, Abstraction**.
- Good Knowledge of **Method Overloading** and **Method Overriding**.
- Experience in **Collection framework**.

WEB TECHNOLOGY:

- Very Good Understanding on using **HTML** tags.
- Having Practical Experience using **Inline, Internal, External CSS**.
- Good knowledge of **Box Model, Selectors, Display** and **Position properties, Animation, Transformation Properties** in CSS.

DATABASE:

SQL (Structured Query Language) And Oracle

- Good knowledge in Writing Queries.
- Strong knowledge in statements **DQL, DML, DCL, TCL, DDL**.
- Having knowledge in **Sub-query and nested sub-queries**.
- Strong knowledge of **Single row and Multi row Functions**.
- Prime knowledge of **Joins**.

ACADEMIC PROJECTS

- **Title:** Indian Food Calorie Estimation | Artificial Intelligence & Machine Learning
Description: Developed a neural network using transfer learning to accurately identify Indian dishes and estimate their calorie content, achieving a mean accuracy of 95% on food recognition tasks using datasets ranging from 10,000 to 50,000 images.
Role: Team Leader
Tech Stack: Python, TensorFlow, CNN.

- **Title:** Travel Management System

Description: Developed a Transport Management Database system using XAMPP, leveraging HTML and CSS for the frontend, PHP for backend logic, and MySQL for database management, while prioritizing user privacy with advanced authentication and authorization features.

Role: Front-End and Data base management.

Tech Stack: HTML, CSS, JavaScript, PHP & MySQL.

INTERNSHIP

➤ Dhee Coding Lab:

I have currently pursuing internship at Dhee Coding Lab (Unit of ProDhee Technologies Private Limited). In the domain of Java full stack. Through which I have decent knowledge on Core Java, got good experience in data structures and algorithms. Gained good problem solving skills.

ACADEMIC RECORDS

Qualification	Year of Pass Out	Percentage	University/School
Bachelor of Engineering (B. E)	2025	84 (CGPA8.4)	Visvesvaraya Technological University
PUC	2021	94	Sri Devaraja Urs Pre-University College
SSLC	2019	90.72	Carmel Jyothi Primary School
